

Go Virtual! DataCore is the Perfect Complement to Your Virtual Servers

"No one would ever dream of throwing away Exchange, VMware or Citrix because the servers they run on became obsolete. So why do we let this happen with storage?"

Unlike traditional storage solutions, DataCore is a portable software solution that radically improves productivity and resource utilisation and survives multiple generations of hardware obsolescence.

VMware, Citrix and DataCore solutions are all examples of portable software solutions that live beyond the life of their underlying hardware platforms. By not tying the brain of the solution to its body, your investment in the solution survives and benefits from future advances and cost savings from new generations of those underlying platforms.

**Think your budget wont stretch
THINK AGAIN!**

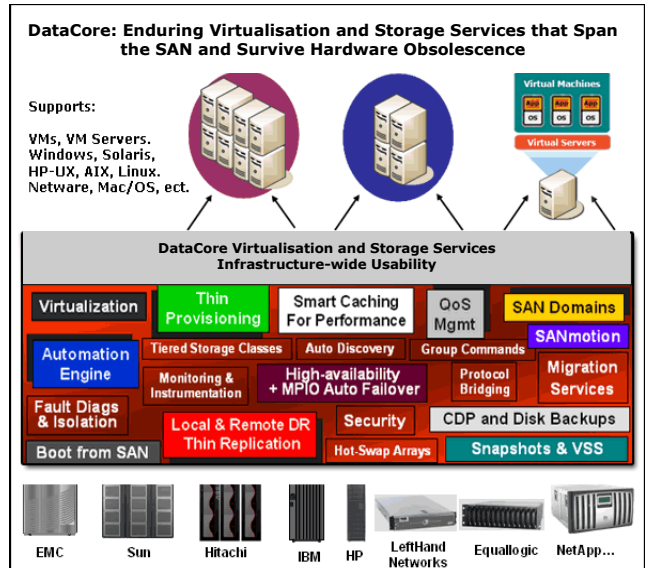

One of the statements we hear most often from potential customers is "our budget wont stretch to virtual storage" that is until we've actually sat them down and talked money!

We can tell you that DataCore can lower your costs because it will, that it can be integrated with VMware, Citrix & Microsoft because it can, that it will respond faster to business demands and deliver IT that's more flexible and consistent because it will.

The fact is we can give you a list of all the benefits that DataCore can offer you but lets face it in the current climate we all know it boils down to can it do the job and most importantly at what cost and this is where DataCore outstrips the competition.

Not only can DataCore deliver the goods it can do it at a fraction of the cost of the competition.

Give us a call now to find out how to stretch your budget even further than you'd hoped.

Why Choose Tecnica?

Everyone is pretty much in agreement that virtualisation is strategic and delivers real benefits by making IT infrastructures more efficient, agile and productive. From storage, servers, desktops to networks, virtualisation is being employed since it makes sense. The term virtualisation is now used in virtually (pardon the pun) all aspects of technology today.

Tecnica only partner with award winning companies - VMware, Citrix, Microsoft, DataCore - therefore you can be confident that with our expertise and best of breed products we provide the best technology solution to suit your business.
